

Ripple UK Limited is very proud to introduce our brand new product range - **New Forest Aromatics**. Conceived and developed by Debbie Mulhern, these beautiful products are both luxurious and ethical. Ingredients that cannot be obtained locally come from sustainable sources. The range includes 100% natural home fragrancing products - candles, reed diffusers, room fragrances and scented sachets, for your car or wardrobe, plus lip balms and hand balms. Lots more new products and ideas, including an hotel range, to come in the New Year!

Within New Forest Aromatics Nikki Baiden has developed a beautiful new range of candles called "Afternoon Tea". Using recycled bone china tea cups and organic scents of 'Earl Grey, Indian Chai, Lemon & Peppermint' these make fabulous gifts and each one is unique! Look out for the "Morning Coffee" range next year !
